5201 St. Vrain Road • Longmont, CO 80503 303-678-6200 • POSinfo@bouldercounty.org www.BoulderCountyOpenSpace.org

#### **BOCC HEARING**

Time/Date of Meeting: 11:30 a.m., Tuesday, March 8, 2022

Location: Virtual Meeting

**TO:** Board of County Commissioners

**FROM:** Janis Whisman, Real Estate Division Manager

**AGENDA ITEM:** 2021 Closings Summary

**DATE OF MEMO:** March 3, 2022 **ACTION REQUESTED:** Information Only

This memo and the attached spreadsheet summarize the 25 real estate projects that the Real Estate Division of Parks & Open Space completed in 2021.

#### Acquisitions

In 2021, Boulder County invested a net of \$6,499,539 to acquire 384.66 acres of land. The county completed 10 acquisition projects that included five new fee properties, three conservation easement amendments, mineral rights under an existing open space property, and 295.83 shares of priority agricultural water rights (in the Boulder and White Rock, Goodhue, Longmont Supply, North Boulder Farmers and Oligarchy ditches, as well as Northern Colorado Water Conservancy District water).

In addition to the high number of water shares acquired, the year's most significant acquisitions were:

- <u>Clark (David & Joseph)</u>: This 38-acre property completed the county's efforts to conserve a buffer on the south side of Gunbarrel.
- <u>Holmes</u>: This 138-acre property east of 75<sup>th</sup> Street in Hygiene has been a high priority acquisition for the county for many years. Its acquisition completed the county's effort to conserve agricultural land between McIntosh Lake and 75<sup>th</sup> Street.
- <u>Stromquist-Laber</u>: This 178-acre property north of Oxford Road between N. 119<sup>th</sup> Street and East County Line Road was already subject to a county-held conservation easement. Acquiring it simplified irrigation practices and will enable the county to manage this property and adjacent county land together as one large block of agricultural land.

#### Dispositions

Boulder County sold the 129-acre Montgomery Farm property to the City of Longmont. This fulfilled a county commitment to provide land to the city for a park. The county had made that agreement with the city so the county could acquire a conservation easement over the 80-acre Tice property. The property is now subject to a county-held conservation easement that allows about 80 acres to be used for a park and the southernmost 50 acres will remain in agricultural use.

### Other Real Estate Work

Like other teams in the department, we are extremely busy. The Real Estate Division has about 150 real estate 'deal' projects going at any given time. These include new acquisitions, conservation easement amendments, takings, and requests for temporary access. Our division's "maintenance" work includes: monitoring conservation easement properties and resolving violations; coordinating the department's response to oil and gas operators' requests for approval to maintain wells on both county open space and private land; ensuring that only allowed uses of open space occur; maintaining data about the county's ownership of open space; and responding to a high volume of inquiries about the county's real estate interests.
