Boulder County Property Address : 3860 Telluride Place If your comments are regarding a specific Docket, please enter the Docket number: SU-22-0003

Name: Rebekah Daniels

Email Address: rebekahdaniels9@gmail.com Phone Number: (512) 599-3680 Please enter your question or comment: I strongly oppose the renewal of the Cemex land lease because of the harm the plant does to our environment. Cemex is the greatest polluter in Boulder County and the 4th largest polluter in the state. As a mother of young children, the air quality issues are of deep concern to me.

Public record acknowledgement:

I acknowledge that this submission is considered a public record and will be made available by request under the Colorado Open Records Act.

Please enter your question or comment: I have lived in Boulder county for over 50 years and I think it is high time that the commissioner should halt the environmental pollution regularly brought to us by the cemex plant! I request the county commissioners DENY the permit renewal for the Cemex Plant and mining operation.

thank you.

Please enter your question or comment: I am very concerned about the permit for CEMEX, including the extending of the mining and the pollution that is going into the Lyon's airshed and the carbon dioxide that is warming the entire planet.

The time for "Business as Usual" is LONG PAST!!

Please make the right decision for Boulder County and the planet given what we know in this 21st century--not what we thought in the 20th century.

Thank you for caring for our County and the Future!

Leslie Glustrom

Please enter your question or comment: There's a longtime residents of Boulder county, I am actually STUNNED that there's even a possibility that CEMEX could possibly get a 15 year extension!

In other words, I vehemently oppose this 15 year extension.

In this age of climate emergency, such an extension makes absolutely no sense, as CEMEX has been identified as the number one polluter in Boulder County and one of the top four polluters in all of Colorado.

What are planners and secret dealmakers and back door politicians and money exchanging hands thinking!

Let's use this "hearing" be a great time to stop the climate madness, and actually make a sensible plan for retiring this dinosaur from our lands.

Dr. Frederic Wiedemann

Please enter your question or comment: Dear Commissioners, I strongly oppose the renewal of the land lease for Cemex because I'm concerned about carcinogens in our air and water, and their impact not only on human life, but also on our regional ecosystems. The Cemex plant is the biggest polluter in the county, and the fourth biggest polluter in the state. It has a troubling history of poor community relations and environmental violations. We are desperately in need of reducing carbon output in response to our climate crisis, moving towards renewable, green energy and resources, and terminating the land lease for Cemex will be a critical step in that direction.

Thank you very much for all your hard work and your consideration of this urgent issue on behalf of the public.
