RE: Request for approval of amendment to US287 Vision Zero Safety &
Mobility Study Contract

Boulder County currently has a contract with the Colorado Department of Transportation (CDOT) to conduct the US287 Vision Zero Safety & Mobility Study funded by Boulder County and grant funding from the Denver Regional Council of Governments' (DRCOG) Transportation Improvement Program (TIP). In addition, local municipalities of Longmont, Erie, Lafayette and Broomfield are also contributing funding to this US287 corridor study.

To address recent fatal crashes occurring along rural portions of US287, within Boulder County, CDOT is adding \$184,865 to the US287 study contract to expand the scope of work to include median design for these segments of the corridor. This additional design will focus on areas of US287 north of Longmont and between the communities of Longmont and Erie. There is no additional expense for Boulder County or local municipalities.

Approval of this item will permit the county to utilize CDOT funding and incorporate the additional median design work into our existing contract with CONSOR Engineers, LLC.

Action Requested

Staff is seeking approval from the Boulder County Board of County Commissioners to receive this additional funding from CDOT and use this funding to add the median design into the US287 Vision Zero Safety & Mobility Study scope of work.
