All these vehicles are still in service and being used by the departments except for Ford escape #1913, it was recently rearended is not drivable. We were asked to wait for replacement vehicles to arrive before we sold the totaled units because of the departmental needs. This is why we don't yet have the salvage amounts. It would put the coroner's office and HHS in a bind without these vehicles for an extended period of time. Please advise how we want to move forward with this.

Thanks.

Question about the salvage of the vehicles. I'm not sure who would have this information.

I'm looking for the salvage amounts that we have gotten for each vehicle, as that will need to be applied towards the purchase of the new vehicles.

Thanks so much!

My figures are matching. I do want to point out that the main reason for the price increases is EV v/s Gas. We are now being directed to buy everything EV when applicable and new suitable EV models have become available to since September.

I am hoping to have the quote from AvTech tomorrow, I will send it as soon as I get it.

Thanks

Thanks for the information! I've added Melissa Golden on this email string as well since she works with Fleet.

I have attached a spreadsheet to track the requests.

When do you believe you will see the quote for the Avtech upfit? As soon as I have that I can proceed with the amendment.

Grant – are your figures matching my figures so far?

Good morning,

Here's an update on where we are on this amendment.

Here's what I will need to complete the amendment.

- All purchase order paperwork to backup the amounts you are requesting.
- A memo explaining what happened. **Recd 9/11/23**
- A list of each new vehicle replacement and its requested amount. **Recd 4 out of 7. 11/6/23**

Hi Dawn,

I'm looping in Grant into this email as he will be the one who is working on the vehicle replacements for these. So the fourth bullet point would be in his wheelhouse.

My team should be able to get the first three.
