

BOARD OF COUNTY COMMISSIONERS

COMMUNICATION

Date: November 29, 2021

Subject: CDPHE NPDES Compliance Certification for the Boulder County Mosquito Control District

From: BCPH, Consumer Protection Program Coordinator, Lane Drager

Background Information:

The Boulder County Mosquito Control District is currently subject to the requirements of the Colorado National Pollutant Discharge Elimination System (NPDES) General Pesticide permit. As part of the permit Boulder County must submit a Compliance Certification providing information about our program. As the ultimate decision makers for the District, the BOCC is required to sign the certification. BCPH as the managing entity has prepared the certification and we are currently in full compliance with all permit requirements.

Staff will also give a brief update on the program and the 2021 season.

Staff Recommendation:

BCPH staff would like the BOCC to sign the Compliance Certification for submission to CDPHE.
